

# Who Are the Top Solar Street Light Companies in the USA?

Cities and developers need partners who understand the nuances of solar autonomy and local weather patterns. The following ten companies have established themselves as the titans of the US solar lighting industry, offering distinct advantages for different types of projects.

## 1. Solar Street Lights USA

<https://www.solarstreetlightsusa.com/>

### Contact

- Headquarters:
- 169 Manufacturers Drive
- Holland, MI 49424
- USA
- Front Desk/Support:
- 616-890-1407

Based in Holland, Michigan, this company is a stalwart of American engineering. They specialize in high-quality, grid-independent lighting systems designed to withstand the harsh winters of the Midwest as well as the heat of the South. Their "GridSmart" solar lighting systems are renowned for their robust construction and ability to perform in challenging climates where lesser systems fail. They are a go-to choice for federal projects requiring strict adherence to quality standards.

## 2. Greenshine New Energy

<https://www.streetlights-solar.com/>

### **MAIN OFFICE**

- [1940 East Deere Avenue,](https://www.streetlights-solar.com/)
- [Suite 100, Santa Ana, CA 92705](https://www.streetlights-solar.com/)
- [For Tech Support: ts@streetlights-solar.com](mailto:ts@streetlights-solar.com)
- [Tech Support Tel: +1 \(888\) 853-5418](tel:+18888535418)
- [Email: sales@streetlights-solar.com](mailto:sales@streetlights-solar.com)
- [Sales Tel: 949-609-9636](tel:9496099636)

Located in Lake Forest, California, Greenshine stands out for its consultative approach. They don't just sell lights; they engineer solutions based on specific geographic locations. By analyzing local solar radiation data, they size their panels and batteries to ensure zero blackouts. Their flagship "Supera" series is widely used in park and pathway projects, offering a sleek design that blends seamlessly into suburban landscapes while delivering powerful illumination.

### 3. Sol, Inc. (Sunna Design)

<https://solarlighting.com/>

#### Contact Us

**Sol by Sunna Design**  
990 Biscayne Boulevard, Office 701  
Miami, FL 33132  
Toll Free 1-800-959-1329  
Technical Inquiries +1 (772) 286-9462

A pioneer in the industry, Sol, Inc. has been illuminating streets for decades. Now part of the Sunna Design group, they bring cutting-edge technology to their Florida-based operations. Their systems are famous for surviving hurricanes and extreme heat, making them a favorite in coastal regions. Their intelligent energy management systems significantly extend battery life, ensuring reliability even after years of operation in the toughest environments.

#### 4. EnGoPlanet

<https://www.engoplanet.com/>

##### **Contact Us**

- (281) 857-6611Sales ext.404
- International Sales ext. 405
- [info@engoplanet.com](mailto:info@engoplanet.com)Customer Support ext. 406
- Address: 4900 Woodway Drive, Suite 980, Houston, 77056, TX, USA

Headquartered in New York, EnGoPlanet is redefining street lighting. They are best known for their “Smart Solar Street Light,” which not only provides light but also offers features like Wi-Fi hotspots, security cameras, and environmental sensors. Their innovative designs often include kinetic energy tiles that harvest power from footsteps, making them a perfect fit for modern, tech-forward smart city initiatives and pedestrian plazas.

## 5. SEPCO (Solar Electric Power Co.)

<https://www.sepco-solarlighting.com/>

### Contact Us

- Phone: 772.220.6615

SEPCO is one of the oldest and most respected names in the solar lighting business. Based in Florida, they focus heavily on commercial and industrial applications. Their systems are built with industrial-grade components designed for a 20+ year lifespan. SEPCO is particularly strong in roadway lighting, providing high-lumen solutions that meet strict DOT safety standards, demonstrating that solar can compete directly with traditional high-pressure sodium or LED grid lights.

## 6. Fonroche Lighting America

<https://www.fonrochesolarlighting.com/>

### Contact Us

- US Headquarters:
- 2224 SE Loop 820, Bldg. C,
- Fort Worth, TX 76140
- Talk to an Expert:
- +1 339-225-4530

Operating out of Massachusetts, Fonroche is a global giant with a strong US presence. Their “Power365” technology guarantees lighting 365 nights a year, regardless of weather conditions. They use smart NiMH battery technology that is more resistant to extreme temperatures than standard lithium options. This reliability has won them massive contracts for lighting up extensive stretches of highway and large municipal zones across the country.

## 7. SolarOne Solutions

<https://solar-one.com/>

### Contact Us

- [221 W. Houston Street](#)
- [Suite 220](#)
- [Sherman, Texas 75090](#)
- [903.870.9052](#)
- [hello@solar-one.com](mailto:hello@solar-one.com)

Another Massachusetts-based leader, SolarOne Solutions, excels in advanced energy management. Their “SO-Bright” technology optimizes battery charging and discharging to maximize efficiency. They have a strong portfolio of successful projects in educational campuses and corporate headquarters, where aesthetics and performance must go hand-in-hand. Their ability to integrate architectural lighting with solar power sets them apart in the design-build community.

## 8. Gama Sonic

<https://gamasonic.com/>

### Contact Us

- Gama Sonic USA
- 6185-F Jimmy Carter Boulevard
- Norcross, Georgia 30071 USA
- 
- [gss@gamasonic.com](mailto:gss@gamasonic.com)
- 1-800-835-4113
- 1-800-835-4173

Gama Sonic dominates the upscale, decorative solar lighting niche. While they offer commercial-grade lights, they are best known for their beautiful, antique-style fixtures that grace residential communities, historic districts, and hotel grounds. Based in Georgia, they hold numerous patents for their solar technologies, including a cone-shaped reflector that enhances light dispersion. They prove that solar lighting can be both elegant and functional.

## 9. Oksolar

<https://www.oksolar.com/>

### Contact Us

- Company Info
- OkSolar.com is a registered Florida, DBA of GeneralCommunications.com, Corp.
- USA, Florida Corporation.
- (Federal Tax ID 16-80122500656).
- [Sales](#)
- [Phone +1 \(347\) 624-5693.](#)

Based in Florida, Oksolar specializes in rapid-deployment and disaster-relief solutions, as well as standard street lighting. Their systems are pre-wired and designed for incredibly fast installation, which is critical for emergency response or temporary construction sites. They offer a vast range of products, from simple pathway lights to heavy-duty roadway systems, making them a versatile supplier for contractors who need reliable gear quickly.

## 10. Leadsun

<https://www.leadsun-us.com/>

### Contact Us

#### HEAD OFFICE

865 S Milliken Ave, Unit G,  
Ontario, CA 91761 USA  
+1 (909) 476-0900

#### OPERATIONS

35373 Condominium Blvd  
Zephyrhills, FL 33541 USA  
+1 (909) 304-1088

Leadsun is a major player in the “All-in-One” solar light market. Their innovative designs integrate the solar panel, LED lamp, battery, and controller into a single, compact unit. This design eliminates complex wiring and drastically reduces installation time and labor costs. Their lights are incredibly popular for parking lots, perimeter security, and rural roads where simplicity and ease of maintenance are top priorities.
